DIDSBURY PIONEER

VOL. XXVII, No 24 DIDSBURY, ALBERTA, THURSDAY, JUNE 12, 1930 \$2.00 per Year. 5 cents a copy

Nominations in Alberta Constituencies.

One hundred and forty candidates are offering themselves for the 63 seats in the Alberta Legislature. Unless there are subsequent withdrawals this number will enter the contest on June 19th. The party affiliations of the candidates in total are: United Farmers of Alberta, 47; Liberals, 36; Conservatives, 19; Labor, 11; Independent, 24, and Communist, 3.

But four acclamations were given, each going to a member of the Government party. Premier Brownlee was acclaimed in the Ponoka riding, Hon. O. L. McPherson, minister of public works, received acclamation in Little Bow, and Mr. McKeen and Hugh Allen, both members of the Government, ranked in the last Legislature, were re-elected in the Lac Ste. Anne and Grand Prairie ridings respectively.

Golf Tournament Started Yesterday

The Country Districts Golf Tournament for the Calgary Herald Cup and the Alberta Championship commenced on Didsbury Golf Links yesterday (Wednesday). Players from the Innisfail, Lacombe, Red Deer and Didsbury clubs which comprise this district competed.

The tournament will be continued at the links of each club in the district and the winner will compete against other district winners for the cup and championship at Calgary. Each district winner will receive a gold medal.

Miss O. Pearl Reist of Marion College, Marion, Indiana, arrived on Sunday evening to spend a few months with her parents, Mr. and Mrs. Theo Reist.

Alberta Government Crop Report

Report Issued by the Department of Agriculture on June 7th.

Showers falling over a large part of the province early in the past week followed by higher temperatures and an absence of winds have created a more favorable crop outlook than existed ten days ago.

During the last week in May continued high winds caused soil drifting resulting in widespread injury to growing crops in the central part of the province and in limited areas reseeding was necessary. It is impossible at present to accurately estimate the damage due to soil drifting. The degree in which severely blown fields will recover will depend upon the weather conditions of the next ten days. There is considerable injury to crops due to other pests of the province, and it may be stated the injury due to soil drifting and insect pests is slightly above the average.

Reports from the areas lying south of Calgary and north of Edmonton continue to be the most favorable. Moisture in these areas has been sufficient for present needs and they have not suffered from soil drifting as in other parts of the province.

A number of our correspondents report pasture fair and livestock in good condition. The hay crop, however, outside of the irrigated areas is likely to be below average. On irrigated lands, alfalfa is making excellent progress.

The management of Didsbury Tennis Club would again call the attention of the players to the fact that membership tickets may be had from Mr. Robson at the Royal Bank or Mr. J. Boorman at the Telephone Office. Money is needed to pay for lumber etc. and also to keep the courts in shape for playing on.

Nomination For Didsbury Riding.

Nominations for Didsbury constituency were held at Squalow, Monday and as expected, A. B. Clappold was nominated by U. F. A. and W. A. Austin was nominated on the independent ticket.

Mr. Austin's nomination papers were signed by 12 electors and Mr. Clappold had 30 signers.

Both candidates will speak in Didsbury during next week. Mr. Clappold will speak here on Monday June 16th and Mr. Austin winds up his campaign here on Wednesday, June 18th.

LOCAL & GENERAL

Mrs. W. G. Evans spent the week in Lethbridge, attending the O.E.S. Grand Chapter.

Didsbury defeated Olds by 18-0 in a runaway game on the home grounds on Wednesday last week.

Messrs. Arden and Elden Brown of Independence, Oregon, are visiting at the Culling and Sandeman home.

Mr. Ed. Pearson who has been employed with the C.P.R. in Saskatchewan, returned home this week to spend a few days with his parents.

All Didsburyites who have been attending Normal at Calgary and Camrose returned to their respective homes last week.

Several dogs in town were reported to have been poisoned last week. We consider this to be one of the meanest actions a person can be guilty of. A dog may not mean much to other persons but generally means quite a lot to its owner.

Knox Church is planning to hold a "Family Service" this Sunday. The whole service will be but one hour. This month being the nineteenth hundred anniversary of the Christian Church, it is appropriate to commemorate the event by a family service of worship.

Bill McFarquhar has leased the building at present occupied by N. Nowak and is now busy painting and making alterations. He expects to have his stock on hand and open his hardware business the latter part of this month. Mr. Nowak is moving his shoe shop one block further north.

The Public Works Department has oiled the C. & E. Highway both north and south of town and it is now a treat to be able to drive without getting lost in a cloud of dust. The townsmen to re-gravel the highway within the town limits and when this is done it would be a fine time to apply a coat of oil.

A delightful surprise was given Mr. and Mrs. Bruce Parker on Friday evening last when a number of their friends gathered at their home to celebrate Mrs. Parker's birthday. Four tables of cards were arranged and prizes were won by Miss Moxie, Mrs. Gillies, Mr. Thurlow and Mr. Parker. After a delicious lunch had been served, the guests departed for their homes.

A very pleasant afternoon was spent on Monday when about 35 guests gathered at the home of Mr. Will Adam in Didsbury and presented Miss Lillian Wolf with a miscellaneous bridal shower. After the presentation of the gifts, ice cream and cake were enjoyed by all, after which the friends left with many expressions of love and best wishes for the guest of honor.

Mr. and Mrs. Theo Reist entertained to supper on Sunday evening. Miss O. P. Reist of Marion, Indiana, Mrs. G. R. McLean, Mae, Harriet, Lois, Donald and Glen of Calgary; Mr. and Mrs. D. C. Archer, Didsbury; Mr. and Mrs. M. K. Snyder, Canby; Mr. C. Coleman and Miss G. Natter, Misses Lena and Ruth Lewis, Camrose; Miss Rebecca E. Reist, Didsbury; Aylmer Snyder, Didsbury and Mr. Russell Sherries, Canby.

WEDDINGS JACKSON-FARRANT.

The Hartman English Church was the scene of a pretty wedding on Wednesday afternoon, June 4th, when Monica Edythe, eldest daughter of Mr. and Mrs. H. Farrant of Didsbury, was united in marriage to Mr. Harry Jackson, second son of Mr. and Mrs. A. Jackson of Waterville.

To the strains of the "Wedding March," played by Mrs. C. Bolton, the bride entered the church on the arm of her father. She looked up charming in a dress of Byrd blue crepe-back-satin and wore a picture-hat to match and carried a shower bouquet of pink and white carnations and maidenhair fern.

Miss Doreen Farrant, sister of the bride, made a pretty bridesmaid, attired in maize silk-crepe and carrying a sheaf of salmon-pink gladioli. The groom was attended by his brother, Mr. Frank Jackson. Mr. Cypryan Farrant acted as usher. Rev. W. J. Archer performed the ceremony.

About forty-five guests were served a dainty luncheon at the home of the bride's parents. The feast which was presided over by Mrs. G. Summers, was daintily decorated in maize and white and was centered by two wedding-cakes. One of these was a gift from the bridegroom's grandmother in England. Miss Francis Jones, Miss Gladys Carlson, Miss Evelyn White and Miss Marie Kershaw assisted in serving.

The happy couple left on the following morning for an extended motor trip through the Mountains.

Increase Appropriation For Road Work

At the last meeting of Waterville Municipal Council, the estimates for the year were submitted and while it is intended to expend considerably more money on road improvement than in previous years, the council will levy the same mill rate as the two previous years, viz.: 10 mills.

A capital grant of \$2,000 to be expended on market roads will be received from the Provincial Government and an income grant of \$1,570.

Including the above grant, it is expected to expend about \$2,000 on material and machinery, repairs and public works.

The council purchased a road planer from the Union Tractor and Harvester Co. This implement is most efficient in road machinery and was reported to be doing excellent work in smoothing the roads.

Mrs. J. Boorman entertained a few friends to a music recital on Saturday evening last. The members of the Boorman family gave musical selections and little Betty Cummings played in a piano-forte duet with Mrs. Boorman. Miss Suggested rendered a vocal selection. Among those present were Mrs. Cummings and family Mrs. Sex, south, Elizabeth Austin, Mr. Ternum, Miss Black and Mr. E. C. Fletcher of Red Deer.

Mr. Pete Miquelon of Olds, is the relieving agent at the C. P. R. depot.

The Farm For The Farm Boy?

Every once in a while some pullman car philosopher comes along with a few suggestions on how to remedy the evils with which agriculture is supposed to be afflicted, and frequently winds up with a peroration containing some gratuitous advice to "keep the boy on the farm."

All of which might be all right if the itinerant solon were fully acquainted with the conditions of the country which he calmly surveys from the window, the conditions of the industry about which he descants so easily and freely, and the trend of the times, about which he may, or may not know anything. If, however, he were so well posted he would probably tell the newspaper reporters that he has "nothing to say on the subject today."

Now this question of "keeping the boy on the farm" is not a new one, and it has a good many angles to it, some of which are well worthy of a little reflection by the individual before he decides whether the boy should be kept on the farm, and if so, how to go about it.

The first question that naturally arises is: "Should the boy be kept on the farm?"

This query opens a great realm of speculative thought and examination long before the sequent answer: "How is it to be done?" can be satisfactorily dealt with.

It can be said at the outset, without fear of contradiction, that not all boys are fitted for life on the farm, physically or temperamentally, despite the fact that the farm affords an outlet for the expenditure of a wide range of talents. To try and bind such youths down to a life with the soil is akin to shipping a consignment of flannel vests and fur coats to the niggers of Equatorial Africa, and about as useful.

And what about agriculture itself? Does agriculture need, and can it offer suitable rewards and satisfaction to, all the boys who are born on the farms of Western Canada?

Here again is a question which has an important bearing on the problem of taking care of the future of the rural youth. Fifty years ago a single farmer could only raise enough produce to feed a handful of people. Today, with the use of highly mechanized and highly powered implements, one farmer can feed a host, and the trend in the direction of increasing the productive power of the individual in the realm of agriculture is neither recording a halt nor a swing in the other direction.

If science, combined with improved business management, is going to continue to widen the scope of the individual engaged in agricultural production, the time may come when a very considerable proportion of the lads reared on the land will have to look elsewhere for a vocation.

Then, even more than today, the question of determining the fitness, or otherwise, of the rural boy for bringing forth the fruits of the earth, will assume a greater importance. As has happened in other industries in the flux of time and change, those best adapted, by nature and preparation to agriculture will be those who will stay with the industry, and they only. The others will find other fields more suited to their talents and inclinations.

If the foregoing diagnosis of the trend of the times is correct, it is very fortunate that the Western Canadian provinces have within their borders an infinite variety of resources awaiting the application of the initiative and courage bred in our youths, for their recovery and conversion to the services of mankind.

It is also fortunate that coincident with this tendency to reduce the man power on the farm, a marked development is taking place in industrial life in the west which, along with the development of the resources already referred to, will afford an ever widening outlet for the energies of young manhood.

Progress has always been marked by evolutionary changes of this kind. Usually they bring discomfort to some, but this is inevitable. It is useless to try to stem the forward march. The wise attitude is to try and discern what present day trends may bring in the future and take advantage of the opportunities they may afford.

These are questions which, no doubt, are receiving serious consideration by those responsible for the conduct of education in rural districts. The wise educationist is not content with taking things as they are for granted, but is looking to the future and making adjustments which the necessity of tomorrow may dictate.

Can Supply Canada's Needs

An investigation made by the Canadian Government Department of Mines shows the sodium sulphate deposits in Saskatchewan containing over 100,000,000 tons of natural hydrous salt, enough to supply the Dominion's requirements and to furnish a surplus for export. One of the chief uses in Canada of this "salt cake" is in the production of sulphate or kraft pulp.

Stunts Planned For This Year

One Man Plans To Walk Across English Channel

It looks as if 1930 is going to distinguish itself as a year of amazing stunts.

Herewith are just a few of the things that carefree men and women are planning to do during the summer.

Fly an engineless glider across the Irish Sea from Holyhead to Dublin.

Walk across the English Channel on water boots.

Cross Niagara in a miniature submarine.

Walk blindfold around the top of one of the tallest buildings in Britain.

A young airman, Mr. Alec B. Trafford, of Birmingham, is to attempt the dangerous feat of flying a glider across the Irish Sea. He has already had considerable experience in glider-flying in Germany, and is now at work on the machine with which he intends to make his big attempt.

The man who is hoping to cross the channel on water boots is Mr. J. Hazzard, who has invented an ingenious device consisting of a pair of ordinary shoes attached to the tops of two airtight bags, which he inflates with a bicycle pump. To help him in his 21-mile stroll across the waves he will use a pole attached to another inflated bag. He will obtain refreshment from a floating quick-lunch counter, to be established somewhere near mid-channel.—From Pearson's weekly.

CRYING BABIES ARE SICKLY BABIES

The well child does not cry — it is only the sickly baby who cries. The well child is laughing and happy. Baby's cry of distress is his way of telling his mother or nurse that he is ill. Therefore, if your baby cries do not delay in looking for the trouble.

Baby's Own Tablets are a safe and efficient remedy for childhood ailments. They are a mild but thorough laxative which through their action on the stomach and bowels banish constipation and indigestion; break up colds and simple fevers and promote healthful sleep. They will make baby happy and keep him happy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Preparing Eggs For Storage

The new egg-candling and egg-processing plant at the Pacific Coast Terminals, Limited, is now in operation, preparing eggs for storage and candling them at the rate of 500 cases a day.

For Scalds Or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

In early Saxon marriages, the father of the bride delivered one of her shoes to the bridegroom who touched her head with it as a symbol of his authority.

Miller's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels, they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

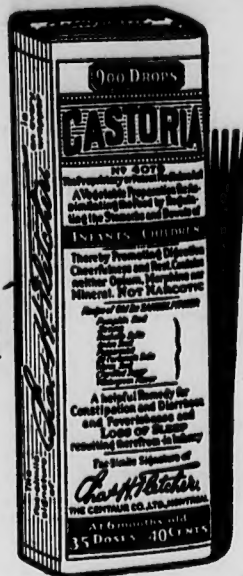

Mark Twain once said that there were two occasions in a man's life when he could not understand a woman—before he marries her and afterwards.

First-Aid

For all pains and aches, foot troubles, cuts and bruises, or general massaging purposes, Minard's simply can't be beaten.

MINARD'S
"KING OF PAIN"
LINIMENT

The upsets of Children

All children are subject to little upsets. They come at unexpected times. They seem twice as serious in the dead of night. But there's one form of comfort on which a mother can always rely; good old Castoria. This pure vegetable preparation can't harm the tiniest infant. Yet mild as it is, it soothes a restless, fretful baby like nothing else. Its quick relief soon sees the youngster comfortable once more, back to sleep. Even an attack of

colic, or diarrhea, yields to the soothing influence of Castoria.

Keep Castoria in mind, and keep a bottle in the house—always. Give a few drops to any child whose tongue is coated, or whose breath is bad. Continue with Castoria until the child is grown! Every drugstore has Castoria; the genuine has Chas. H. Fletcher's signature on the wrapper.

A New Motor Disease

"Driver's heel" is the latest disease. Rough roads, requiring constant working of pedals and controls, are responsible for this trouble, which can be very painful. Doctors with patients suffering from the new ailment are recommending that heel mats of some soft material should be provided by motor manufacturers, particularly for racing cars.

In Baltimore, Ohio, there is a monument to Adam.

Something New In Business

Renting overcoats has proved a successful business for a store at East Ham, London, England, during the recent chilly weather. The rate for use of the garments is the equivalent of four cents a day, and a small deposit is required. Many rent the garments for only one day.

The promissory note dates back to 2,100 years before the birth of Christ and was invented by the Babylonians.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

Progress Of Canada As Seen Through Eyes Of Writer In New York Times

Arthur Elliot Sproule, writing in the New York Times says: "True though it be that we are all undoubtedly getting more and more 'internationally minded,' yet the job is so enormous that, for most of us, only the very biggest foreign events seem able to catch our attention—great things like the naval conference in London and the Soviet attitude toward religion, for example.

So true is this that — possibly because our mental eyes get a trifle out of focus by looking at distant objects—we are often startled to find how little we are seeing of events that lie under our very noses, as it were.

Take Canada, for example. What do most of us know of this great and growing nation that stretches at our very doors. Its progress fully merits the word "astounding," and yet few Americans know anything about it. For instance:

The port of Halifax has increased its tonnage by 40 per cent. in twelve months. The port of St. John, ranking after Montreal and Vancouver in the amount of traffic handled, but first among Canada's winter ports, has the largest dry dock in the world. Moving west, Quebec produces 85 per cent. of the world's supply of asbestos. Water-power projects are being successfully brought into operation, and other great and far-reaching changes have taken place.

Suppose you were asked to name the greatest port on the Atlantic Coast, after New York—would you immediately answer "Montreal"? Yet it is a fact that the harbor of Montreal, 1,000 miles from the sea, is the second port on the North American Continent, New York only being greater. At Sault Ste. Marie the canals carry more traffic than the Suez, Panama and Manchester Ship canals combined.

Winnipeg, the centre of the wheat country, has taken on added importance as the headquarters of a new mineral area, and it may well be that in the future the mineral products of the Province of Manitoba will vie for supremacy with the Province's enormous grain resources.

Further west again, Turner Valley, Alberta, has drawn the attention of the world to its potentialities as an oil producer.

On the Pacific Coast, Canada possesses vast wealth, notably in her lumber resources, and there are vast gold mines in the mountains.

Passing to world trade, observe that Canada leads all other nations in the production of newsprint, nickel, asbestos and cobalt. She takes second place in the production of wheat and automobiles, and third place in the output of lead and gold. As an exporter she stands sixth among the nations of the world.

According to recently issued trade statistics for the year 1929, Canada holds fifth place in aggregate import and export trade, second place in export and total trade per capita, third place in favorable trade bal-

ance, and second place in favorable trade balance per capita.

There is no need to be wearisome, but it is surely well to face even a few salient facts such as the foregoing. We have quite a neighbor up north!"

Colorado Grain Growers Coming To Exhibition

Will Be Well Represented When 1932 Show Opens

The growers of San Luis Valley, Colorado, U.S.A., will be well represented at the World's Grain Exhibition, at Regina, 1932, according to reported activities of the Farm Bureau Federation. Among other plans for the improvement of crops the bureau will give special attention to weed control, the securing of pure seed and the "preparation of a valley-wide exhibit at the World's Seed Show, Regina, Canada, in 1932."

The States of Montana will also be represented according to a letter received at exhibition headquarters from A. H. Stafford, commissioner, Department of Agriculture. Mr. Stafford says, "It is the plan of this department to prepare and exhibit grain at your conference in 1932. Will you kindly forward to us at this time detailed instructions as to the requirements for establishing such relations with you.

Preparing To Ship Fish By Airplane

Commercial Air Lines Around Great Lakes Will Speed Up Transportation

Other than flying fish will soon take to the air in changing their habitat from the Great Lakes to American cities.

Commercial air lines around the Great Lakes, both in Canada and the United States, are preparing to transport whitefish, pickerel and other edible varieties of fish, from the shores of the Great Lakes to the railroad for quick shipment.

It is said that the movement of fish from inland lakes to railway contact by air has been successfully and economically accomplished in other localities and since the greatest industry of the great northwest is fishing, this outcome is anticipated.

Huge Bridge Nearing Completion

The bridge over the harbor at Sydney, Australia, is nearing completion. The structure, costing \$20,000,000, has a span of 1,650 feet, and accommodates a roadway 57 feet wide, four electric tracks and two ten-foot footways. It is estimated that changes in temperature will cause a maximum expansion of 14 inches. The bridge is the world's largest of its type.

(By Eva A. Tingey)

PRETTY HOUSEWEAR

All Tingey models are created in Paris and sketched by her there. The patterns are made and adapted for American women in New York by American patternmakers.

Fashion seldom wavers in her affection for spots. They have so fresh and trim an effect. They are chic, too, and add an air of charm to the simplest of models.

White spots on a blue ground were chosen for this attractive housewreck. The trims were white. The neck line merging into two front pieces on the bodice has a very slimming effect, which is helped still further by the point on the skirt. Slight shaping of the lower skirt section gives grace and free movement.

Other schemes besides spots could, of course, be used for this model. Plaids, checks, stripes and flowered patterns with contrasting trims would all be good. Almost all standard washing cottons are suitable. Washing silks and rayons can also be used.

This pattern may be obtained in sizes 16 to 20 and 34 to 42. It is ready for immediate delivery. It is hand cut.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Foreman—"Well, everything all right?"

Night Watchman—"Yes, I have not done so bad for the first night. I've checked everything off, and there's only one thing missing—the steam roller."

Canadian Forest Growth Could Be Stimulated By Scientific Management

Convenience In The Poultry House

Work Should Be Made As Easy As Possible

When building a poultry house it is a matter of importance to see to it that it is not only located at a point easy to reach, but also that it shall be so arranged that the work of attending to the birds be made as easy as possible. The more convenient it is to do the work about the poultry house the surer it is that it will be done.

As the women of the farm usually look after the poultry, the work should be made as easy as possible. If the distance to be covered in going back and forth to the poultry house is twice as far as it need be the amount of extra walking thus involved may have the effect of adding drudgery to the task. The new bulletin No. 132, of the Department of Agriculture, at Ottawa, "Poultry House Construction," goes fully into the question of planning, and makes the observation that not only should the house be accessible, but the internal arrangement ought to be such that the work may be done with the least amount of labor. Among other suggested conveniences is the gate that swings both ways. The feeder may be carrying two pails of water or feed, a gate that swings either way may be opened without stopping to set down the pails. A barrow load of gravel, or the laying of a plank will enable one to pass over a wet place dry-shod.

Another recommendation is the providing of a feed box in which supplies may be kept close to where they are needed. In poultry keeping, as in other farm work, labor is an important item, and in the building and equipping of a poultry house every consideration should be given to means that may be taken to reduce labor.

Land In Good Shape

Irrigated Area In Southern Alberta In Fine Condition

Irrigation carried out during 1929 was the biggest in the history of Southern Alberta, and as a consequence the land is in fine condition now, according to P. J. Jennings, supervisor of irrigation in the Calgary district office of the Dominion Water Power and Reclamation Branch. "Without exception, all the large irrigation projects in Southern Alberta used large quantities of water last fall," he said, "and in consequence their irrigated lands were in good condition this spring."

"The spelling books of fifty years ago were the best," writes an old-timer to the Toronto Globe. "The young folks of today don't know how to spell."

An estimate of the total forest production of Canada for 1928 has just been completed by the forest products branch of the Dominion Bureau of Statistics. The estimate includes all the products of operations in the woods, the unmanufactured materials cut in Canadian forests during the year.

An estimate has also been made of the extent to which the forests are being depleted annually in the process of exploiting these materials. For this purpose converting factors based on actual measurements have been used. Each of these factors represents in cubic feet the quantity of standing timber that must be cut in the forest in order to produce one unit of the material in question, based on the total cubic contents of the tree. By the use of these factors it has been estimated that the total forest production of 1928 involved the cutting of 2,988,038,430 cubic feet of standing timber. This constitutes only the annual depletion for use and to it must be added the volume of material annually destroyed by fire, which exceeds 900,000,000 cubic feet of merchantable timber and young growth on 1,200,000 acres. Insects and fungi destroy annually at least 800,000,000 cubic feet to the annual drain on the forest resources of considerably more than 4,788,000,000 cubic feet.

A total depletion of 4,788,000,000 cubic feet per annum does not necessarily imply that the total resources are reduced by that amount every year and the supply will therefore be exhausted in forty-seven years. Estimating the probable duration of supply of forest products is not a matter of simple arithmetic. The rate of utilization is far from constant. It tends to increase with the discovery of new uses for wood, the increase in population and the increase in the demand for forest products from other countries whose supplies have been reduced to a greater extent than Canada's.

On the other hand, there is a steady increase in volume taking place in all healthy stands of timber due to annual growth. By the application of scientific forest management this annual growth can be stimulated and could be made to take place over the entire area of potential forest land, it is believed.

Feed As They Go

Many of the birds that migrate by day travel slowly and feed as they go along. The cliff swallow is said to average twenty-five miles a day for the first twenty days of its two thousand, five hundred mile flight from winter to summer home, and increases this to sixty miles a day at the end of the journey, doubtless feeding to a greater extent during the early stages of the trip.

PRESS DELEGATES FROM "DOWN UNDER"

Members of the New Zealand delegation to the fourth Imperial Press Conference, to be held in London, England, in June, are shown photographed in Victoria, B.C., with members of the City Council, who tendered an official welcome to them. In the centre of the front row is Mayor Anscombe, who officiated at the civic luncheon in honor of the visitors, who were also entertained to dinner by the Government of British Columbia, with Premier Tolmie presiding. The New Zealanders are crossing Canada by Canadian Pacific lines and will sail from Montreal on the "Duchess of Bedford," on May 16.

J. E. GOODER, Editor & Manager

POWER OF ADVERTISING

Beyond all question the most potent creator of business demands in Canada is the newspaper advertisement. Millions upon millions of dollars are expended every day in the stores of the Dominion because well written advertisements have directed public attention to convenient, becoming, attractive, useful, ornamental and suitable merchandise. The sale of all necessities, all luxuries, all indulgences, is more powerfully stimulated by the newspaper advertisement than by any other agency. Only hunger, cold and nakedness are comparable to the advertisement as a promoter of sales—and even purchases of food, fuel and clothing are directed more largely by the business columns of the press than by any other influence except immediate necessity.

The largest stores in our greatest cities have been built up by their advertising, their persistent and clever invitation to the public in the press to share in their bargains. Imagine what would happen to daily sales of merchandise, real estate, theatre tickets, insurance, books and other things, if newspaper advertisements were prohibited by law for six months. It is no exaggeration to say that they would drop 50 per cent.

It is not the current news of events alone that makes the press of such incalculable value to the nation, nor the free editorial expression of opinion. The business news of the day, as told by business concerns in their announcements to the public, decisively influences both the volume and the

LOCAL & GENERAL

Mr. H. W. Chambers spent the forepart of the week in Edmonton.

Soo Sang who has recently returned from a trip to China, has again taken over the Club Lunch.

Messrs. Meaton, Johnson and Russell Berscht, motored to Turner Valley on Sunday.

Geo. Smith and A. W. Axtell left for Alexo on Monday, where they will be engaged in carpentry during the summer.

Messrs. J. McDougall, D. Irwin and W. Scheidt attended the U.F.A. directors meeting at Swallow on Saturday.

C. E. Reiber secured appointment as enumerator for Didsbury West polling district and A. Brusco as enumerator for Didsbury East.

Beginning on Friday evening, June 22nd, a series of Evangelistic Meetings will be held in Sunnyslope under the leadership of Rev. A. Traub. Miss S. Zook will conduct the singing.

At the Opera House on June 21st a Saturday Night Lunch will be served by the ladies of St. Cyprian's W.A., commencing at 8 p.m. Home Cooking and Sewing will be sold. Everybody welcome. 24 2c

W.A. Austin will hold a meeting in Westcott School on Tuesday evening 17th June and will wind up his campaign at the Didsbury Opera House on Wednesday evening 18th June.

Rev. and Mrs. H. Roppel and Rev. and Mrs. O. Hehn left on Monday for Kenaston, Sask., where they will attend the North-West Canada Conference of the Evangelical Church.

Miss A. H. Mueller, formerly of Didsbury, who has been attending school at Portland, Oregon, left that place this week for Inglewood, California, where she will make her home.

Did Ranton make a hole in-one at the golf course, Sunday? It is rumored that he did,—anyway, we have it on good authority that he found his ball in the hole from the drive.

Last Thursday evening, the home of Mr. and Mrs. A. H. Dedels was the scene of a very pleasant surprise for their daughter Celina, when a number of her friends met to celebrate her birthday. An enjoyable evening was spent in playing games, after which a delicious lunch was served.

direction of trade which flows to this or that store, office or bank. This is a fundamental fact no business house can afford to overlook.

Sportsmen and Those Interested in Game Preservation Invited To Join Didsbury Fish and Game Association.

What would you give in dollars and cents and personal effort to preserve for yourself and that son of yours this unequalled hunting and fishing heritage that is yours within the boundaries of Alberta? That is the challenge which the organized sportsmen of Didsbury, and of Alberta, are throwing to you across the campfire.

For years little groups of men with the lure of the outdoor in their bones have been banded together in various parts of the province as fish and game protective leagues and have been giving freely of their time and money in conservation work for you and every other Albertan as well as themselves. They brought the sportiest of game birds—the Hungarian Partridge—to the province; they have seen to it that the Dominion Government established fish hatcheries so that Alberta's streams and lakes would always be stocked with game fish; they recognized the threat of the ever-increasing hordes of crows and magpies and started the campaign which was instrumental in having the provincial government institute the annual competition which destroys thousands of these pests; they have had more game preserves established as supply reservoirs, and they have zealously worked for game laws to ensure you sport year after year.

Straight from the shoulder they ask, "What have you done to replace the fish, birds and big game that you have killed?" Would you take a beautiful car and smash it to pieces in one mad drive without a thought of preserving it for future outings?

Man to man, the organized sportsmen of Alberta, of which the Didsbury Fish and Game Protective Association is affiliated, ask you to assist them in this work which they are doing so that the future will not find the red-blooded sports of hunting and fishing confined to private estates doing their own propagation. This came to pass long ago in Europe and even in parts of the United States and Eastern Canada.

You can give this assistance most effectively by joining your nearest game and fish protective league. Even if you cannot attend every meeting, your name adds weight to the recommendations and requests which the organized sportsmen of the province may make to the federal or provincial governments. Your contribution of one dollar a year to the Didsbury Fish and Game Protective Association with the dollar of others will make possible the introduction of more game bird species, the planting of fish and the preservation of our big game.

And secondly, keep the game and fish laws and see that others keep them. They were enacted at the request of your brother so that your bag and creel will not be empty when you return home at night.

Good hunting, Partner—and don't forget what happened the buffalo.

P.S.—The committee, W. H. Davies, G. H. Liesemer, G. Julien and W. D. Archer, will be pleased to look after your membership.

**"Desert Song" Film
Dwarfs Stage Version**

Screen operetta is now a fact. Through the magic of the talking picture, "The Desert Song," one of the most tuneful and most popular musical plays ever shown on the stage, has been brought to the screen, and has been produced on a scale that would be impossible in the theatre.

Sigmund Romberg's score with its magnificent choruses and the lilt of its beautiful solo numbers, has been reproduced by Vitaphone in all its original glory.

The remarkable production qualities included in "The Desert Song" have been equalled by the unusual excellence of the all-star cast presented by Warner Brothers.

The scenes throughout the picture are especially beautiful, ranging from an extensive French military post in Morocco to encampments of the Red Shadow and his band of native Riffs in rocky passes of the mountains, and far-flung vistas of rolling sands of the great African deserts, with the Riffs singing as they go, riding their magnificent horses at breakneck speed into the setting sun.

The "Desert Song" will be the attraction at the Didsbury Opera House on Thursday, June 19th.

**OTTAWA REDUCES AREA OF
GLACIER PARK**

A bill was introduced in the house of commons recently, dealing with the number of national parks, by Hon. Charles Stewart, minister of the interior. The principal changes brought about by the bill are reductions in the areas of parks in Alberta and British Columbia.

In the past the official name of the park at Banff has been the Rocky Mountain Park. The bill changes the name to Banff and defines the boundaries, cutting off a portion on the east side, which is not in the mountains. The area of the park will now be 2,585 square miles. An eastern portion was also taken off Jasper Park, leaving it with an area of 4,200 miles.

Yoho Park, in British Columbia, has certain mineral lands taken from it and its area will be 31 square miles. Glacier Park, B.C., was reduced to 53 square miles.

**WEST INDIES TRADE
STEADILY EXPANDING**

Canadian trade with the West Indies is increasing tremendously, according to Dr. J. A. Ruddick, Dominion Dairy Commissioner, who has just returned to Ottawa, after spending six months in the West Indies. Dr. Ruddick predicts still greater trade in the near future.

Canada is becoming widely known throughout the West Indies and at present is getting 90 per cent of the business of the West Indies as to the flour they import, he declared. We are also getting more than 90 per cent of the business on dairy products they import: cheese, butter and powdered milk. The latter trade has leaped up from 30 to 90 per cent in the last three years.

24 Hours Ends COLDS

You can send the soothing vapor of the pine woods, to the cause of your cold by inhaling Catarrhozone.

Little drops of healing balsams are distributed through the whole breathing apparatus in two seconds.

Like a miracle, that's how Catarrhozone works in bronchitis, catarrh, colds and irritable throat. You simply breathe its healing, fragrant vapor, and every trace of congestion and disease flees as before fire.

Catarrhozone A Ten-Minute Relief!

No trace of the disease remains after Catarrhozone is used—no more matter to clog the nostrils—no more headache and buzzing ears. Two months' treatment (guaranteed), price \$1.00; smaller size, 50c, at all dealers.

WORLD HAPPENINGS BRIEFLY TOLD

Sale of the Crown jewels of the Ottoman empire, valued at \$300,000,000 was forecast to raise money to relieve Turkey's financial crisis.

A movement is under way to make the Watertown, N.Y., airport an official port of entry for Canada. At present pilots must fly to Malone to obtain clearance papers.

All school uniforms throughout China must hereafter be made of native cloth in order to encourage home industry, according to a circular order of the Ministry of Education.

A protocol putting into effect the Young Plan has been signed at the French foreign office by Premier Briand, and the foreign ministers of Great Britain, Italy and Belgium.

Captain C. D. Barnard, pilot of the 'plane in which the Duchess of Bedford flew to Capetown, South Africa, and return, is planning to fly around the world in 30 days.

The Montreal Star says on good authority that a representative British, Canadian and United States group is negotiating to purchase Labrador for \$100,000,000. The proposal will be submitted shortly.

An order-in-council issued by the Department of Agriculture, under the authority of the animal contagious diseases act, prohibits the importation into Canada of parrots, parakeets, cockatoos, macaws, lorries, and love birds.

Installation of radio-beacons to facilitate night flying is expected at Forest, Manitoba; Regina, Saskatchewan; Morse and Bassano, Alberta, according to an announcement made by Inspector D. McLean, of the Civil Aviation branch. With the installation of these beacons night flying under all weather conditions will be possible.

Five Powers Sign Reparations Plan

Commission Disappears and World Bank Will Soon Be In Action

The Young plan for payment of reparations, reducing Germany's obligations for damages caused during the world war from something like \$25,000,000,000 to about \$9,000,000,000, has gone into effect.

A protocol registering the decision of The Hague conference, which adopted the plan January 2, was signed by the ambassadors of Great Britain, France, Belgium, Italy and the French Minister of Foreign Affairs, after a tea served by the French Foreign Minister, Aristide Briand.

The first consequence of this act, which modifies for a second time the reparations machinery provided by the Versailles treaty, will be the disappearance of the reparations commission which, in co-operation with other bodies, has taken charge of payments under the Dawes plan.

The second will be the beginning of functioning by the bank for international settlement at Basel, Switzerland.

The third will be the issuance of \$300,000,000 in reparations bonds, two-thirds of that going to creditor nations and the other third to Germany for internal requirements.

PALPITATION Throbbing of Heart After the "Flu"

Mrs. J. Cunningham, Sault Ste. Marie, Ont., writes:—"Last February I had a severe attack of influenza which left me with palpitation and throbbing of the heart."

"I felt very weak and tired so began to take

and used about six boxes and have found them help me a great deal, and am very thankful for having found such a good medicine."

Price, 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Business Is Growing

Deep-sea arrivals at the Port of New Westminster during March numbered 23 vessels compared with 17 in March, 1929. During the first three months of the year 60 deep-sea vessels with a gross tonnage of 343,453 registered inwards at New Westminster compared with 48 vessels of a gross tonnage of 268,017 during the similar quarter of 1929.

Persian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

Poultry Going To England

A trio of Brandon birds, having high egg production records, have been shipped to Ottawa to be trained and fitted for upholding Manitoba's reputation for high production poultry at the Crystal Palace, Sydenham, England, when the fourth world's poultry congress assembles poultry leaders from all parts of the world next July.

Heal the Sprain with Minard's.

Vancouver Port Busy

Commercial shipping entering the Port of Vancouver during March showed marked activity, the net tonnage being about a million. The movement showed 1,909 arrivals with a tonnage of 966,288. Deep sea arrivals totalled 106, with a net tonnage of 403,856.

For a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

At a rough estimate the animals in the London Zoo represent a total value of about \$175,000, the Indian rhinoceros being one of the most valuable, costing more than \$5,000.

Minard's Checks Falling Hair.

Not Fair To Pupils

Promotion Examination Not Always Good Test Of Efficiency

Ontario secondary school teachers are as a body opposed to the suggestion that examinations be dispensed with in the middle schools and that a recommendation-by-teacher pass system be substituted, and are asking that the Department of Education defer action for the present.

There are many people nevertheless who feel that there is considerable merit in the proposed change, and that written examinations are not the best way of deciding what pupils should be advanced.

Several reasons for that belief readily suggest themselves.

In the first place, there is the case of the nervous type of pupil whose school work throughout the term has been uniformly good, but who finds the examination test a mental hazard too great to be overcome.

And then there is the student who is a quick "study," with a memory that works wonders for a short time.

He may loaf through his school work and then by concentrating on a rapid-fire review at the end of the term take high marks at the examination, only to forget half of what he has learned in a few months.

Isn't it better that pupils should be so thoroughly trained in their work during the term and passed on recommendation rather than pupils whose school rating is not particularly high should get through by a special effort at examination times?

Two Tested Recipes For Salad Dressings

Now that salads are the order of the day, really good recipes for salad dressings will be welcomed. A salad is often made or marred by the piquancy of the dressing used, so that tested recipes are very desirable. Since some prefer an uncooked dressing, and others a cooked dressing, we give two recipes, both of which we know will please.

SALAD DRESSING (Uncooked)

Two eggs beaten until light; ½ teaspoon salt; ½ teaspoon mustard; ½ cup Eagle Brand Condensed Milk; ½ cup vinegar. Beat the first four ingredients vigorously for a few minutes add the vinegar, stir well and set aside for a few hours to thicken. Excellent for fruit or vegetable salad. Will keep for weeks. For Russian dressing add Chili sauce to taste.

SALAD DRESSING (Cooked)

Half a tablespoon salt; 1 teaspoon mustard; 1 tablespoon flour; 1 tablespoon butter; ½ cup Eagle Brand Condensed Milk; ½ cup water; ¼ cup vinegar; 1 egg. Mix dry ingredients, add slightly beaten egg, butter, milk, water and vinegar. Cook until thickened. Strain and cool. Whipped Borden's St. Charles Evaporated Milk, or cream, may be added before serving if desired. Yield, 1 cupful.

Could Hardly Live For Asthma, writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

She—"Now that we're engaged, dear, you'll give me a ring, won't you?"
He—"Yes, certainly, darling. Er—what's your number?"

Campers Carry Minard's.

"Did your girl friend enjoy the art exhibit?"
"No, she couldn't find a mirror in the whole gallery."

Why suffer needlessly? Douglas' Egyptian Liniment brings quick, sure relief to scald feet, soft corns and warts. Relieves inflammation. Removes proud flesh.

A Growing Industry

Production From Inland Fisheries In Manitoba Shows Great Gain

While agriculture, the basic industry of Manitoba, together with manufacturing, mining, and other industries has advanced substantially in the province in recent years, the production from the inland fisheries has probably shown the greatest gain. In the past five years the fisheries production has increased more than 100 per cent. In 1924 the market value of the fish caught in Lake Winnipeg, Manitoba, Winnipegosis and other lakes was \$1,232,000, while last year it was \$2,634,000. In 1929 the commercial fishermen of the province caught 33,000,000 pounds of fish, a record for Manitoba, with a market value of \$2,634,000.

PEOPLE "ALL NERVES"

What To Do If You Find Yourself In This Condition

The sort of thing that specialists call nervous debility is the run-down condition caused by over-work and household worries. The sufferers find themselves tired, low-spirited and unable to keep their mind on anything. Any sudden noise startles and sets the heart palpitating violently. They cannot sleep well at night; their hands tremble and legs seem unable to support them. Such a condition is indeed pitiable.

Doctoring the nerves with sedatives is a terrible mistake. The only real nerve tonic is a supply of good red blood. Therefore the treatment for nervousness and run-down health is Dr. Williams' Pink Pills, which promptly build up and enrich the blood. The revived appetite, the strengthened nerves, improved spirits and new strength which come after a course of these pills will delight every sufferer.

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"If, as you admit, you were three miles away digging potatoes when this man was arrested for speeding, how can you testify that the car was going at the most only 20 miles an hour?"

"Judge, Ah used to own that car!"

Use Minard's for Burns.

Children of London recently attended a lecture on the home life of ancient Egypt and were shown balls and rattles which amused Egyptian babies of 2000 B.C.

Summer COLDS

Almost everybody knows how Aspirin tablets break up a cold—but why not prevent it? Take a tablet or two when you first feel the cold coming on. Spare yourself the discomfort of a summer cold. Read the proven directions in every package for headaches, pain, etc.

A Lucky Catch

Sentry Receives \$20,000 For Saving Life Of Prince At Belgrade

One of King's Alexander's gigantic guardsmen recently was given an indefinite leave of absence after receiving a reward of 100,000 dinars (nearly \$20,000), for having quite inadvertently saved the life of the 2-year-old Prince Tomislav, the second son of the King.

The Prince was playing in the apartments of his mother, Queen Marie, on the second floor of the palace, at Belgrade, when suddenly he fell from a window. The sentry, who was passing at the moment, received the full weight of the child on his shoulders. The Prince clutched the sentry around the neck and slid to the ground unhurt, but the burly guardsman was knocked unconscious and crumpled to the ground.

To go forward is important; to go straight is more important.

CHAPTER XIII.—Continued

"Oh, Grandma! You might have
made him angry."

"Not Gam Garfield. He likes to
make believe he's stern, but he's real
good-natured underneath. He laugh-
ed. I guess he forgot he was a lawyer
with an important case. And then he
sat right down where you are, child,
and said: 'It's you who ought to be
spanked, Grandma Davis. You charged
my client ten dollars for a string
o' beads that's worth about ten
cents.'"

"Ten dollars!" gasped Charmian.
"What an idea! But you did charge
too much, Grandma, and—"

"I never heard there was a law to
keep a body from getting as much as
he could in a trade," interrupted the
old lady. "I said as much to Gam,

READ OF A CASE LIKE HER OWN

Decided to take Lydia E.
Pinkham's Vegetable
Compound

Moncton, New Brunswick—"Before
my last baby was born I was very weak,
nervous and dis-
couraged. I saw
an advertisement
in the paper about
a woman who had
been like me so I
bought a bottle of
Lydia E. Pink-
ham's Vegetable
Compound. I took
three bottles and
it carried me safe-
ly through that
critical time. I
have three children to care for and I
feel well and strong. I have told two
other women about your medicine."—
Mrs. GUS ARSENAULT, 82 Albert Street,
Moncton, New Brunswick.

W. N. U. 1838

and he had to admit that the law
was on my side—considering. And I
told him, too, that if Edgar Purdie
said he paid ten dollars for those
beads, why he was a liar on top of
all his other sins. I was real indig-
nant."

Troubled though she was, Char-
mian couldn't suppress a laugh at the
picture Grandma's words brought up.

"I guess he saw I was kind of
riled," went on the old lady, "be-
cause he said, 'Don't you worry,
Grandma. I won't let you get into
any trouble if I have to commit
perjury myself to prevent it; but
what did the deacon pay for those
damn beads?'"

"Did you tell him?" asked Char-
mian breathlessly.

"I did; but not till I'd asked if
he was making a social call or one
in the interest of his client. He
grinned and said, 'You ought to
have been a lawyer yourself, Grand-
ma Davis; but I'm just dropping in
to pass the time o' day with an old
friend.' So I told him the whole
story, Charmian. Honestly, child, I
thought he'd have hysterics. There
wasn't a shred of dignified lawyer
left in him when I got through."

"But what's he going to do?"

"It don't make a mite o' differ-
ence to me what he does, so long as
we're not dragged in; and we won't
be, or I don't know Gam. He said,
confidentially, that he thought when
the deacon cooled off a little, and he
pointed out the big expense of a law
suit, that it would all be settled out
of court. Just now Edgar's mad
clean through. He says Luella's the
only woman he ever proposed to that
refused him, and claims that she led
him on something scandalous."

"Well, dearie, maybe you'd better
get us some dinner. It's been an
exciting morning and I feel all gone.
On top of everything else there was
a fearful cat fight in Lizzie Baker's
yard. I could hear the yowls as loud
as if they were in this room. They'd
be at it now if George K. Knowles
hadn't come along and turned Liz-
zie's hose on 'em. And there are
folks who say that nothing happens
in Wickfield!"

Charmian laughed as she went to-
ward the kitchen, glad there was
enough excitement on hand to keep
Grandma from asking too many
questions about her ride with Jim;
but as they were finishing their
meal the old lady queried suddenly:
"Did you enjoy your ride? And did

you get my catalogue from Emmy?"
"Oh, dear!" cried Charmian, "I
left it in the car."

"It's no great matter," responded
Grandma comfortably. "If Jimmy
finds it he'll bring it 'round to-night.
Like as not he'll be glad of an ex-
cuse to come. Did Emmy say what
she was ordering?"

"A hat," smiled Charmian. She's
not going to be outdone by Clara
Darling."

"Do tell!" ejaculated Grandma.
"Did she show you the picture,
dearie? There were some awful
pretty hats on page fifteen. What
color will it be? Green doesn't go
well with most of Emmy's things."

Charmian laughed.

"It's possible, you know, to buy
some other color, even by mail. I
didn't see the picture, Grandma. It
was Jim who went in, and Emmy
asked his advice about it."

"Then he can show me which one
it is when he brings the catalogue.
Emmy's not liable to be extravagant,
but it does seem risky getting a hat
clear from Chicago. It might get
mashed in the mail, and then where'd
she be? Maybe that's Jimmy now.
There's an auto stopping. If 'tis,
you call him in, dearie, so he can
show me—"

"That you, Jim?" called Char-
mian, half rising as the front door
opened. "Come in a moment.
Grandma wants you."

Jim, who had eaten hastily and
was on his way back to the bank,
obeyed willingly enough. He had
the bulky catalogue under his arm,
and though he smiled at Grandma,
his eyes shifted to Charmian, as if
to discover if she looked more cheer-
ful than when he left her.

"You sit down," commanded
Grandma. "I guess George K. can
run the bank without you for ten
minutes. Draw up a chair. I want
you should show me the hat that
Emmy Bascomb's been fool enough
to order without first seeing the
quality."

"Good thunder!" objected Jim,
"this book is three hundred and fifty
pages thick! How'm I to find—"

"The hats begin on page fifteen,"
broke in Grandma. "They look real
pretty in the pictures; but I've never
seen but one mail order hat, and ex-
cept for making a good deal of com-
motion around town—"

"Grandma," Charmian interrupted
sternly, "I've got a notion that Jim
is sick and tired of hearing about

that hat. Let him alone. He's got
a right to admire a green hat if he
wants to. The truth is, I liked it
myself!"

"You did!" gasped Grandma, as-
tonished; while Jimmy laughed, the
first real laugh of the day—for him.
For a moment his eyes met Char-
mian's with their old twinkle, then
returned to the book, and he said
dubiously:

"It must be this one. I remember
it kind of hung down one side, and
had a red rose on the other."

"Read what it says, sonny. I
haven't got my glasses."

Jim obeyed, reading with mock
solemnity: "'A dressy model with
soft, girlish lines that you will sim-
ply adore. The brim is of two colors
of dainty lace-patterned straw. Col-
ors: black with a red rose; meadow
pink with sand; gobelin blue with
crab apple. Price only one-fifty-nine.
Shipping weight two pounds.' That
sounds pretty swell, Grandma,
doesn't it? Emmy was hovering be-
tween the black with the red rose,
and the blue with the crab apples or
carrots. I gave her a shove toward
the blue, and ran, or she'd still be
asking my assistance. Now I must
skip, or George K. will think I've
absconded with his interest money."

Again his eyes sought Charmian's,
but at the mention of interest, her
face hardened, and she turned away.
A moment later the whirl of an en-
gine told her that Jim had gone, and
Grandma said, lifting her eyes from
the gayly colored page: "Seems as
if that hat would be a little wide in
the brim for Emmy; but you never
can tell about a hat until you try it
on. I think she's running a terrible
risk, though they do say, 'money re-
funded if not satisfactory.' Still,
they might make a fuss if she sent it
back. Business men are hard-hearted
to deal with—that is, some of 'em
are, though Father always said there
were exceptions."

"I'd like to find one, then," said
Charmian; but Grandma, still absor-
bed in Emmy's purchase, didn't no-
tice the sudden bitterness in the girl's
voice.

CHAPTER XIV.

It was with a very genuine glow
of happiness that Charmian learned
that the school board had given her
"District Four." Some years had
passed since she graduated from the
State Normal School—years when it
seemed best for her to stay with
Grandma; but as it became increas-
ingly difficult to meet expenses and
keep the old house in repair, the girl
realized that something must be

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly
blotches on the face, eyes with yellow
tinge and that tired and languid feel-
ing? This indicates a torpid liver.
Headache, Dizziness and Biliousness
surely follow. You must stimulate
your lazy liver, start the bile flowing
with Carter's Little Liver Pills.
They also act as a mild laxative,
purely vegetable, free from calomel
and poisonous drugs, small, easy to
swallow, and not habit forming. They
are not a purgative that cramps or
pains, unpleasant after effect follow-
ing, on the contrary a good tonic.
All Druggists 25c and 75c red pkg.

done, and to get the school only a
mile from her own door was a vast
relief.

(To Be Continued.)

A Brave Little Traveller

Little Jean Baxter recently appear-
ed on the White Star liner "Alber-
tic," bound for Halifax, with the fol-
lowing label attached to her coat:
"My age is 3 years. My mother is
dead, and I am going out to my dad-
dy in Saskatoon. I am travelling
alone, so please be good to me."

"So Skinny Shamed In Bathing Suit. Gained 15 Lbs."

"Gained 15 lbs. tak-
ing Ironized Yeast. Was
always ashamed to wear
bathing suit but now I
can and not feel too
skinny." — Eulah Lan-
ningham.

Thousands write of 5 to 15 lbs.
gained in 3 weeks with Ironized
Yeast. Bony limbs round out. Ugly
hollows fill in. Blemished skin gets
clear and rosy like magic. Nervous-
ness, indigestion, constipation dis-
appear overnight. Sound sleep. New
health and pep from very first day.
Two great tonics in one — special
weight-building Malt Yeast and
strengthening Iron. Pleasant little
tablets. Far stronger than unmedi-
cated yeast. Results in 1 1/2 time.

So quit being ashamed of "skinni-
ness," swallow skin. Get Ironized
Yeast from druggist today. Feel
great tomorrow. Money back from
manufacturer if not delighted with
quick results.

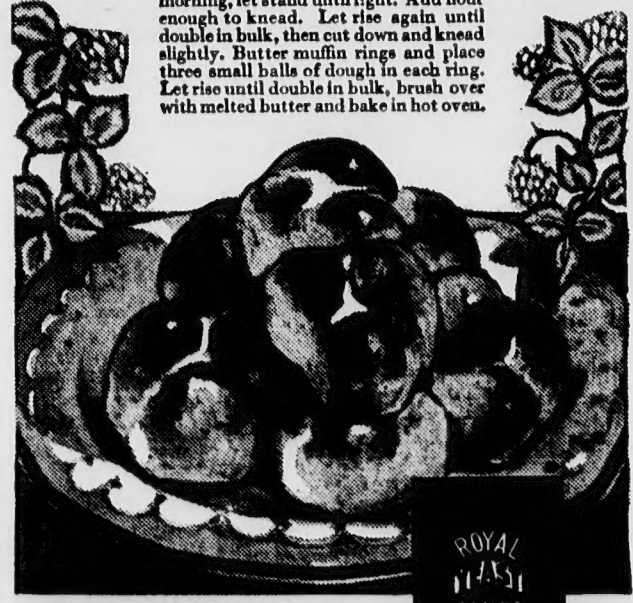

A composer has written a song for
pedestrians. But it will be a long
time before composers nowadays can
hope to excel Chopin's famous fune-
ral piece.

Clover Leaf Rolls made with ROYAL YEAST CAKES are a Delightful Change

Try this recipe:

- | | |
|--|-------------------------|
| 1 Royal Yeast Cake dis-
solved in one-half cup
lukewarm water. | 1 tablespoon sugar |
| 1 teaspoon salt | 1 1/2 cups flour |
| | 1 1/2 cups scalded milk |
| | 1 cup butter |

Pour the scalded milk over the sugar, salt and butter. When cooled to luke-
warm add the dissolved yeast and one and one-half cups flour. Allow to stand
well covered in moderately warm place over night, or, if sponge is set in
morning, let stand until light. Add flour
enough to knead. Let rise again until
double in bulk, then cut down and knead
slightly. Butter muffin rings and place
three small balls of dough in each ring.
Let rise until double in bulk, brush over
with melted butter and bake in hot oven.

Bread is one of the most nourishing
of foods. It can be made more
interesting, however, by occasionally
varying the form of serving it.

If you bake at home, the Royal Yeast Bake Book will provide
you with many practical tested recipes for all kinds of home-
made breads. It will be mailed—free—on request.

Burnside Notes

Mr. Austin, the Independent candidate spoke in Lone Pine Hall on Thursday and Mr. A. B. Claypool, U.F.A. candidate on Friday evening, so we have been having our share of political speakers.

Burnside U.F.A. met on Monday of this week when Mrs. J. W. Brown was appointed to attend the Farm Women's Week at Olds Agricultural School in July. Plans were made for the annual picnic on June 30th, which will be the 10th anniversary of the founding of this local.

Mr. Stinson, United Church student, spending the summer at Lone Pine, organized a Boy Scout Troop on Wednesday of last week. Ronald Lyons is Troop Leader with Robert Eckel as Assistant Troop Leader. The members are looking forward to some good times in the holidays.

INNISFAIL-----8 DIDSBURY-----5

Didsbury dropped another League game to Innisfail, Friday evening on the local diamond. The game was closely contested all the way through, very few errors being made on either side.

Wilson was appointed to take the box for the visitors but was soon released after Didsbury had made as many as seven hits for a total of five runs in two and a half innings MacMahon relieved Wilson in the middle of the third inning and held the local boys scoreless. Devolin started the mound duties for the first two and a half innings but he was hit quite frequently and handed over his duties to Sutherland. The latter pitcher allowed eight hits but held the visitors to only three runs.

	R	H	E	
Innisfail:	01410101	8	12	8
Didsbury:	20300000	5	8	7

DIDSBURY---13, INNISFAIL---9

It was sweet revenge, Monday evening at Innisfail, when Didsbury took the northerners into camp to the tune of 13-9.

At one stage of the game the locals had 13 runs on the book and Innisfail zero, this was the fourth innings. Up to the fourth innings Innisfail had put on their best twirlers, Thompson and MacMahon, Didsbury collecting 13 runs from these two men. Wilson was then called to perform on the mound and held the local boys scoreless.

The first seven innings Devolin did the twirling for Didsbury.

Shoe Men in Great Foot Comfort Event.

Thousands of selected shoe merchants all over Canada are going to join hands in a big drive during the week of June, 14 to 21 to spread a splendid foot comfort message to the millions of foot sufferers.

This was disclosed today by Russel Berscht of the J. V. Berscht's Store who said his store would participate in the event, which is known as Dr. Scholl's Foot Comfort Week. He explained that he has had a special training in relieving foot troubles and in fitting footwear correctly under Dr. W. M. Scholl, the-known foot authority. Russell gave some interesting data about feet. He said that seven out of ten persons suffer from some form of foot trouble. It was not necessary, he also said, for anyone to wear larger size shoes in order to secure foot comfort. Any shoe he declared can be made an anatomical shoe by simply fitting the proper Dr. Scholl appliance in it. There need be no sacrifice of style.

People troubled with corns, callouses, bunions, flat foot, weak ankles, will have an opportunity during this week of learning how thousands have been benefited through the aid of Dr. Scholl's Foot Comfort Appliances.

"We are in this nation-wide movement," he said, because it will show to our customers how

300 MILE INDIANAPOLIS SPEEDWAY RACE

BECAUSE of their extra strength and stamina, Firestone Gum-Dipped Tires hold all world's records for mileage and endurance.

Gum-Dipping is an exclusive Firestone process and the only known method of completely insulating every fibre of the tire against internal friction—the greatest enemy to tire life.

This extra process, combined with a rugged safety tread, produces the greatest strength, stamina and safety that is possible to build into a tire.
